Countries not Included in the Analysis Because of Insufficient Data Coverage:

The data sources we were able to identify contained book equity for less than 10 firms in the following countries: Austria, Cameroon, Chad, Comoros, Costa Rica, Dahomey (now Republic of Benin), Djibouti, Dominican Republic, El Salvador, Estonia, French Somaliland, Gabon, Gambia, Guadeloupe, Guatemala, Haiti, Haute Volta (now Burkina Faso), Honduras, Hong Kong, Hungary, Jamaica, Liberia, Martinique, Mauritania, New Caledonia, New Hebrides (now

Vanuatu), Nicaragua, Panama, Paraguay, Porto Rico, Portugal, Siam (now Thailand), Sierra Leone, Sudan, Swaziland, Tahiti, Togo, Ubangi-Shari (now Central African Republic), and Uganda. We did not include these countries in the analyses due to what we consider insufficient data coverage. For the remaining “modern day” countries that do not enter our sample, we were unable to identify or access any directories.
